# Rhode Island Fire Academy Training Program

## *Hazardous Materials Technician Course*

### **HMT**

**Dates:** Monday, November 6<sup>th</sup> through Friday, December 1<sup>st</sup>, 2017  
(See attached Schedule)

**Site:** Warwick's Fire Station No. 10  
225 Potowomut Road  
Warwick, RI

**Class Times:** 8 a.m. – 5 p.m.

**Textbook:** Provided.

**Cost:** Free

#### **Course Description:**

This advanced course for Emergency Responders who are responsible for the mitigation of a hazardous materials release will focus on the Incident Command System and strategies for the control and confinement of such incidents. Topics include: Identification and Classification of Hazardous Materials, Information Sources, Containers, PPE selection, Incident Command System, and Hot Zone Operations.

Both field and classroom sessions comprise this intense course of study. This course will meet all OSHA CFR 1910.120 standards and NFPA 472, 2008 Chapter 7 requirements of the HazMat Technician.

#### **Prerequisites:**

Certified Hazardous Materials Operations Level, Firefighter Level 2, and IS-700, ICS-100, ICS-200

#### **Register by: October 30, 2017**
